\$649

Stream 1
Simultaneous Event

Fall Semester

\$999

Stream 2
Simultaneous Events

Full Year

\$1499

Stream
2 Simultaneous Events

FAQ

Do I need my own camera?

You can use your existing camera equipment, as long as it has an HDMI out function (most do) You can also stream from a tablet or smart phone. Need a camera? No problem, we have some very affordable options for you

Do I have to charge for my streams?

Of course not! Unlike other streaming services, like Pixelott, we allow you to choose which events you monetize. We also have the lowest processing rates among any live streaming service

How difficult is the process?

The process is very easy. A representative from your school simply logs in to their account, schedules an event, and your done! The day of your event, plug your camera into the provided streaming laptop, and press start.
